This year an old University event will be revived in the form of a Ring Road Race, which will be held during the Family Day of Discover University on Sunday 10<sup>th</sup> November 2013.

The race will be held over two different formats: individual or team event (relay), in which groups of four participants will team up and contend for the top spots. There will be two distances for the individual race (2km and 5km) and participants can choose to walk or run the distance. A fun run for children will also be held.

Further information will be announced shortly but in the meantime, we encourage you to save the date in your calendar and start training for what promises to be a fun and challenging event. ## OFFICIAL MERCHANDISE FOR GRADUATION 2013

What better way to preserve your memories of graduation, as well as the time that you spent at University working towards this special day, than by means of official University of Malta merchandise? Furthermore, the range of mementos will allow you to pick out the perfect gift for any fellow students, friends or family members who might also be graduating this year.

The merchandise items will include high quality photo frames in different sizes (matching official graduation photo sizes), as well as frames for graduation certificates, and will incorporate the official University of Malta logo. Save yourself the trouble of getting your photos and certificate framed.

Personalised teddy bears in full graduation outfits will also be available, as well as scarves, ties, cufflinks, paperweights, key chains, ball pens, t-shirts and mugs. You will have the possibility of having t-shirts and mugs personalised with your name, course and year of graduation.

As can be seen, the items will offer something to everyone's taste, and will allow your University memories to live on long after Graduation Day. Full details of the range of merchandise (some of which will need to be ordered in advance) will be made available as Graduation Day approaches. ## MALTA UNIVERSITY PUBLISHING

The latest publication by Malta University Publishing is entitled *The Sweet Kiss of Awareness*. In this book, Steven Zammit's main aim is to raise public awareness in the regard of various aspects of daily life, and to propose practical approaches to peaceful life, here consistently understood as a series of relationships, both with oneself and with all the others.

Various moral and psychological principles are here presented in a succinct and understandable way, easily accessible to all, whilst the author's own earnest concern reveals itself throughout. This is not a book written for its own sake, as its aims are continuously implied both in the content and in the style with which the author relates theory to real situations which can be experienced from day to day by all. This book can prove helpful to anyone involved in the educational sector.
